

Fonts of Corel Draw X4 (= CorelDraw 14)

In the file <http://www.sanskritweb.net/forgers/corel13.pdf>, we documented the fonts supplied with CorelDraw X3 (i.e. CorelDraw 13) published in 2006, with the exception of CJK fonts. In the font list starting on page 5 below, we document all fonts, including the CJK fonts too.

Corel Draw X4 (CorelDraw 14), issued in 2008, includes the same fonts listed below pages 5 through 23, but contains 10 additional "Engraver Fonts", not yet included with Corel Draw X3:

The character sets of these "Engraver Fonts" are shown below. These engraving machine fonts have been created automatically by URW with the consequence that some of the glyphs are faulty, e.g the percent-sign of G1L S06 Sans Machine, the at-sign of G1L SL01 Memphis, etc.
