

"555 professionelle TrueType Fonts für Windows"

The fonts produced by Brendel and SoftMaker were also sold by other companies. For example, the **TopWare CD-Service AG** in Mannheim (Germany) distributed the above CD with font forgeries made by Brendel in Cologne and by SoftMaker in Nuremberg. Please note that the above CD is not identical with the CD "TruePack Professional", although both CDs contain exactly 555 fonts each.

Ulrich Stiehl, December 2005
